**DETAILED ACTION**

1. Claims 1, 3, 5, 8, 10, 21 and 22 are pending. Claim 1 independent.

***Claim Rejections - 35 USC § 112***

2. Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172.01. Since the method is implemented in a weight management system independent of a load balancing system, and it appears that the load balancer distributes the traffic to the application instances according to the weights, however there is no step which sends the computed weights from the weight balancing system to the load balancer as illustrated in Figure 8, ref. 895. Correction is requested to include this step in the independent claim for clear understanding of how the weights are received and used in the load balancing system.

3. Claims 3, 5, 8, 21, and 22 are rejected as being dependent on a rejected base claim.

***Allowable Subject Matter***

4. Claims 1, 3, 5, 8, 21, and 22 appear to be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
